TEC TALK NEWS

HOA WEBSITE: www.tropicaleasthoa.com

OCTOBER 2021

ALL THE T. E. INFO YOU WANT TO KNOW 24/7

We have a wonderful resource available to most of us right there on our cell phones or any other internet connection you might have available to you. That resource is the TE website. When you search the website listed above, you'll be able to find all of the past issues of TEC TALK as well as all Association documents including Rules and Regulations and By-Laws. Additionally, you will find copies of all the forms that you can also find in the clubhouse on the bulletin board. Please use this resource anytime you have questions.

IT HAS HAPPENED AGAIN AND AGAIN!

You have been asked to follow some simple steps when trash is not picked up on its designated day. We all can see when our trash bags are still sitting out on the driveway at the end of the day, once again, either bring your plastic bags and boxes inside and return to the driveway in the morning or put all your plastic bags and boxes inside a solid trash can with a lid. Rain overnight just makes a mess with wet boxes and animals can tear the bags apart. Please be sure your trash bin has a lid secured on it because when it rains it can fill with water and make it very difficult to be lifted. If you still want to voice a complaint about service, residents should call directly to Waste Pro at 772-595-9390.

If you want more information about Waste Pro and their tips for solid waste removal, there is a Waste Pro document on the bulletin board in the Clubhouse for your viewing. Please do not remove or relocate.

A WORD ABOUT THE WILDLIFE AND ANIMALS IN OUR COMMUNITY

Just a reminder, harming or interfering with most wildlife in Florida is a federal offense, especially sandhill cranes, a very protected species. They mate for life and losing one means the end of the pair.

We also please ask that no one feed any of the wildlife, fish, ducks or any animals on the property...might as well not forget about the no feeding of the alligators while we're at it. Please comply. You're not doing them a favor.

A NEW DOG ISSUE WHICH NEEDS EVERYONE'S HELP

It has come to the attention of several members of our community that people are walking right past the Private Property sign into our complex to walk their dog. The real problem is that they have also been observed not picking up after their dogs. Please keep an eye out for anyone who might be a culprit to this issue and politely ask them to walk their dog in the public area of the town.

LADIES LUNCHEON

On October 18th at 11:30 a.m. the ladies will gather for lunch at First Watch in Stuart. Sign up in the Clubhouse if you are attending.

Ray Bisesto has been hospitalized recently and we all wish him a speedy recovery.

HUMOR ME

What kind of exercise do lazy people do? Diddly-squats.
What do you call a pony with a little cough? A little horse!
What do you call bears with no ears? B.
